

## THE NEW-YORK DEMOCRACY.

COMMENTS OF THE PRESS ON THE TICKET  
AND PLATFON.A STRONG DECLARATION AGAINST INFLATION.  
*From the New-York Tribune (Dem.).*

Gov. Tilden and the last Democratic Convention deserve a hearty verdict for the bold and manly opposition they made to the currency. The Syracusans were given no uncertain sound on either side, and we congratulate the country on the certainty that there will be from that forward a vigorous opposition to the Democratic ticket. We trust the Bowery boys will do the same. The Lawrenceans wished to make happy all the hard-money Democrats who are the orthodoxy brand of the party, and therefore opted from the platform of the last Democratic National Convention. Until another National Convention comes, the platform of the Bowery boys is to be considered as the Democratic party's. It was a point well worth making to show that Pendleton and Allen are heretics, who have departed from the party faith as formulated by the only body having authority to speak for the whole party. They had no right to do so. The declaration of the Convention, it cannot very well be disputed that he has made a good use of it. He has unequivocally pledged himself and the Democracy of the great Empire State to a steady and zealous opposition to the money power. Those who were in a fair way to capture the party if Gov. Tilden had not stood in the breach. He has boldly passed the Rubicon. The inflation tide has swelled so high only because most of the other Democratic leaders have been too timid to stand up to it. Let us hope that Gov. Tilden should lose his majority of last year, of which there seems no danger. The ticket nominated is a very good one, although a majority of its members are not men of much note. There are no great names and exceptions, and the State has to congratulate itself that gentlemen of the ability, experience, and high character of Mr. Blodget and Mr. Rounsevel consent to serve as heads of executive departments.

DUTY LOYALLY AND COMPLETELY FULFILLED.  
*From the New-York Tribune (Dem.).*

The first great duty of the Democratic Convention at Syracuse was done to the people of the Commonwealth. It was to set them free for their entrance into a host of citizens thoroughly competent in point of intellect and experience to represent the people. It had been done to the best of our knowledge. The public rank of the party is raised and maintained. We have only to say to every voter, you may now go to the polls and vote for the Democratic ticket, and you will be doing your duty to the country in regard to our national welfare.

THE TICKET NOT STRONG ONE.  
*From the Albany Express (Dem.).*

Speaking of the last convention, we do not consider the two tickets as yet to be decided, from re-enforcing the contrast between the two tickets which is nevertheless engendered by the complete division of the party. The public rank of the party is raised and maintained. We have only to say to every voter, you may now go to the polls and vote for the Democratic party, and you will be doing your duty to the country in regard to our national welfare.

AN EXPRESSION POSITION ON THE FINANCES.  
*From the Albany Express (Dem.).*

We point with pride to the Democratic Convention at Syracuse in regard to the party's sincerity in the matter of administrative reform. The position taken upon the finance question by emphatically deciding gold and silver to be the only safe standard and uncompromised principles of finance, and to meet without compromise the demands of the party has added to the strength of the national Democratic party.

THE PLATFORM ACTUALLY DONE.  
*From the New-York Tribune (Dem.).*

The ticket, it will be seen, is headed by an upright and able man, Mr. Blodget has made no real State effort, but he has had a long and strenuous career in Congress, and is a head of an important investigating committee. Moreover, he is an old opponent of the scheme of the Bowery. Of course we can expect him to do his best. He is the man. The platform is to pay off the debts of the nation, to get rid of the surplus, and to put the country in a condition to meet its obligations.

AN EMPLORATIVE POSITION OF GOLD AND FINANCIAL PRINCIPLES.  
*From the Albany Express (Dem.).*

Three things are rendered clear at the meeting of the Convention at Syracuse, to the entire nation by the action of the Democratic State Convention, first, There is to be no partisanship in the choice of a financial policy, which is to be determined by the party's own judgment, and second, that their power and control of government, Second, Democrats who separate from their party on questions now, or have ever done so, remain in the party until the day of final separation.

THE PLATFON IS FAIRLY DONE.  
*From the New-York Tribune (Dem.).*

The unanimous nomination of Mr. John Bigelow in the name of the Bowery is a very sensible move on the part of the Bowery, and it is to be hoped that the Bowery, distinguished in the name of the Convention, will give Mr. Bigelow the opportunity to serve his constituents in a high place. The platform of the Convention is to be the platform of the Bowery, and to all, including the most disinterested friends of the Bowery, it is to be the platform of the Bowery.

THE PLATFON CONSISTENT.  
*From the Syracuse Journal (Dem.).*

The Democratic State Convention at Syracuse has a platform which, so far as its language on the financial question is concerned, cannot be objected to. That is, it has rejected the seventh and the ninth articles of the Constitution, and has adopted the fifth article of the Constitution of 1872, and the first, second, and third of the state convention of 1875. This is well, but as it goes no better than even the impotence of Democratic participation in the choice of a financial policy, which is to be determined by the party's own judgment, and not by the scheme of the Bowery.

THE PLATFON IS FAIRLY DONE.  
*From the Albany Express (Dem.).*

No possible platform has been devised, and the most active platform on which to base rate of other candidates ever has been presented to the nation. Especially as regards the financial question, which is the chief question of the day, the Bowery has done well. The Convention has said and done. It is highly probable that the residue of the Democracy will accept the leadership of New-York on the currency question, and the old guard, and their supporters, will remain in the party.

THE PLATFON IS FAIRLY DONE.  
*From the Albany Express (Dem.).*

The platform of the Convention is to be the platform of the Bowery, and to all, including the most disinterested friends of the Bowery, it is to be the platform of the Bowery.

THE PLATFON IS FAIRLY DONE.  
*From the Albany Express (Dem.).*

The new Democratic platform is the old one, founded by a determined opposition, and, and currency, with such indisputable evidence of the number of the Governor—and by a energy of Gov. Tilden's—of the Convention, of course everything was fairly because it was just as Tilden wanted it. Inside we are more than harmony, but grows outside, and there is a very strong feeling among the delegations in the Convention, and it is not attempted to be concealed that, in the actual election next year, the Democratic ticket will be put up.

THE PLATFON IS FAIRLY DONE.
